Mohammed Masthan Vali

Front-End React Developer | Digital Specialist Engineer

Hyderabad, Telangana-500028 | +(91)-7095803221 | masthanvalismd@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Front-End React Developer with **4.2+** years of experience designing and building scalable, high-performance enterprise web applications using **ReactJS, JavaScript, TypeScript, SPFx, HTML5, and CSS3**. Strong expertise in component-based architecture, REST API integration, responsive design, and performance optimization. Experienced in delivering end-to-end front-end solutions, developing reusable UI components, and building scalable real-time applications in Agile environments. Recognized with two Infosys Insta Awards for delivering high-quality, business-critical solutions.

PROFESSIONAL EXPERIENCE

Digital Specialist Engineer - Infosys Ltd - Hyderabad *Oct 2025 – Present*

- Designed and developed an admin approval dashboard streamlining document approval workflows through automated notifications and comprehensive audit trails.
- Developed real-time submission tracking with auto-polling, notification badges, and localStorage-based change detection for instant status updates.
- Implemented role-based access control (RBAC) with dynamic UI rendering to enforce secure access across Admin, Uploader, and Viewer roles.
- Improved application performance through React.lazy, Suspense, webpack chunking, and TTL-based caching, reducing redundant API calls by 40%.
- Collaborated with cross-functional teams in Agile environments to deliver project milestones 20% faster while maintaining high-quality code standards.

Systems Engineer - Infosys Ltd - Hyderabad *Mar 2022 – Sept 2025*

- Developed a document management web application from scratch, translating UI designs into pixel-perfect, responsive layouts.
- Built a reusable component library and developed 7 custom React hooks, improving code reusability and eliminating duplication across 6+ modules.
- Implemented metadata-driven search, multi-select filtering, sorting, and pagination to enhance document discovery and user experience.
- Integrated RESTful APIs for file uploads, CRUD operations, and data fetching with robust error handling and loading states.
- Built responsive, cross-browser compatible interfaces using React Bootstrap, CSS3, Flexbox, and Grid while participating in code reviews and mentoring team members on React best practices.

PROFESSIONAL SKILLS

Programming Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Front-End Technologies: ReactJS, SPFx, React Hooks, React Router, Redux, Context API

UI & Styling: Tailwind CSS, Bootstrap, Material UI, Fluent UI, PrimeReact

API & Data Handling: REST APIs, Axios, SharePoint PnP JS, JSON

Tools & Platforms: Git, GitHub, GitHub Copilot, npm, VS Code, Postman, Chrome DevTools, Webpack, CI/CD

Architecture & Optimization: Component Architecture, Single Page Applications (SPA), Responsive Web Design, Cross-Browser Compatibility, State Management, Agile/Scrum, Performance Optimization, Lazy Loading, Code Splitting

EDUCATION

Master of Computer Applications (MCA) *2019 – 2021*

Shree Vivekananda Institute of Management Sciences *69%*

Bachelor of Science (B.Sc.) *2016 – 2019*

SKP Govt Degree College *CGPA: 8.24/10*

CERTIFICATIONS & AWARDS

Certifications: Infosys Certified React Expert; Infosys Certified JavaScript Programmer; Infosys Certified Front End Web Developer; Infosys Certified Professional – Generative AI for All

Awards: Received two **Infosys Insta Awards** (Nov 2024 & Mar 2026) for delivering high-quality enterprise solutions; achieved a **5/5 stakeholder rating** for successful project delivery; promoted to **Digital Specialist Engineer** after completing the DSE Bridge Program.
